

EEO Meeting Map

Build a plan to get alignment for high-stakes meetings/moments.

What is an EEO Meeting Map?

It's an artifact you can use **prior** to building presentation slides.

It helps save time and helps us align on critical components prior to jumping into significant work by meeting v-Teams.

The EEO Meeting Map includes:

Audience

Identifies primary and secondary target audience.

Meeting purpose

Simple articulation of what we're solving for and the key messages that need to land.

Desired outcomes

What does success look like? What do you want our target audience to think, feel and do because of this meeting?

Context

Capturing critical background information to ensure alignment.

Stakeholder matrix

Identifies key stakeholders and who owns what.

Workback

Maps the plan leading up to the meeting; including sequencing.

The EEO Meeting Map template

Location: e.g., in person/virtual/hybrid

Date and time:

Meeting length:

Meeting purpose: Write a simple statement of why this meeting is happening

Desired outcomes:

1. Simple statement goes here
2. Simple statement goes here
3. Simple statement goes here

Primary audience:

- Who is your primary audience in the meeting?

Secondary audience:

- Who else do you need in the meeting?

Primary audience takeaways:

- Think: Add info here
- Feel: Add info here
- Do: Add info here

Context

- Bulleted list that succinctly summarizing critical context; this may include:
 - What is the business driver for this meeting (e.g., competitive threat; technology trend; business performance issue; budget cuts; new Microsoft priority; etc.)?
 - Are there any critical or related initiatives or executive discussions that are happening related to this meeting that might impact this meeting or outcomes?
 - How does your audience like to consume information?
 - What internal or external pressures are being applied to your audience members that impact how they think about your desired outcomes?
 - What is preventing your primary audience from “thinking, feeling or doing” any of your desired outcomes at this time?

Stakeholder matrix (includes people inside and outside of your org)

Name	Role and their org	Disposition	Actions needed	Required socialization points
<i>Name of individual here</i>	<i>Indicate whether they are a Reviewer, Approver, Consult, Informed</i>	<i>Indicate whether they are a Supporter, Detractor, or On-the-fence</i>	<i>Be specific about all the things you need from this person</i>	<i>Indicate all the things you need this person to weigh-in on and/or support</i>

The EEO Meeting Map workback plan

My workback plan

Date	Milestone	Deliverable	Owner	Attendees/audience	If meeting required, has it been scheduled?
